Writing

Hi, Tom. Well, in different cities it can be different weather. But usually in the summer the weather is good. Sometimes it's raining, so you have to bring your raincoat. g' sp

In lots of russian cities and towns it's very hot. Try to wear your most comfortable clothes for this kind of weather. But at night it might be kind of cold, so you have to bring a sweater or other warm clothes. In my town summer is very specific. It can be very hot or very cold. It's different in every year. Take clothes for every kind of weather, so you'll feel comfortable. lex lex

111 Olivar st
Khanty-Mansysk
Russia

The 9th of October

Dear Tom Green,

Gr. I ~~enjoy~~ live in a small town because I know everything about it. Gr. But people don't try to keep our city clean too. But ~~the~~ Khanty-Mansysk is very beautiful town, I think. Lex.
In my spare time I can go to the cinema or to a cafe with my friends. Also I can stay at home or go for a walk with my own. Lex.

100 ca.

The weather in summer sometimes isn't very good. It can be sunny ~~one day~~, but it can be raing for a week. It can be hot or cold. So I don't know what weather will be next summer.

How do you spend your spare time in your town? Do you enjoy to live in your town? And what weather is in summer in your town?

Best wishes,
Katya

There are

Writing ~~These~~ so many views on situation with ~~Now in the century~~ of virtual technologies virtual technologies. And one of the most serious ~~all~~ problems is peoples' incorrect time spending.

In my opinion there aren't so much disadvantages in surfing the internet ~~and~~ spending time in social media and playing computer games. ~~and because~~ Because I think that in the future technology will ~~have to~~ ~~have more~~ ~~more~~ play bigger role than now and that's why people'd rather ~~[illegible]~~ ~~[illegible]~~ get used to them ~~than to start~~ from the childhood

But from different point of view surfing the internet can't be instead of ~~[illegible]~~ our alive friends which is the most important

And in conclusion I ~~[illegible]~~ think that our life our friends and nature will be never changes to even the most modern technologies

Computer games become more popular and accessible in our time. And there are people who prefer games to real life

In my opinion computer could never change life communicating and spending time with other people. Travelling, walking, reading, meetings with friends - people have so many possibilities in reality. Computer games are not bad as a free time activity but not more. The main is that games are good only like an entertainment.

In a conclusion I must say that I don't agree with this statement. Sometimes difficulties appears in our lifes but overcoming it we get knowledges and experience which can't be in the games

Writing

Replacing real life with computer games has been a major problem ever since computer games became popular. For some people gaming quickly became an addiction and they say that they would prefer video games to real life.

My personal opinion is that people who are willing to sacrifice their personal life to enjoy computer games all day long are missing ~~on~~ a lot of amazing things that life has to offer. Computer games are getting close to look like real life but they will never offer such a variety of things to do, places to go and people to meet. I myself play video games but prefer to spend most of my time to improve myself.

In the conclusion I'd like to say that people should give life a chance and not waste it on virtual achivements.
